

A blue STM32F103C8T6 development board. It features a central black integrated circuit (IC) labeled 'STM32F103C8T6'. To the left of the IC is a yellow push button. Below the button is a white potentiometer. On the right side, there is a black integrated circuit (IC) labeled 'PC15'. The board has a USB connector on the left and a 5V pin on the right. The board is populated with various components including a yellow push button, a white potentiometer, a black integrated circuit (IC) labeled 'PC15', and a silver inductor. The board has a blue PCB with white text and markings. The pins are labeled with numbers and letters. The board is shown from a top-down perspective.
